Forex Atlantis EA

FOREX ATLANTIS

Exceptional trading mastermind

FOREX ATLANTIS

FOREX ATLANTIS EA

Forex Atlantis is an expert advisor for MetaTrader 4 platform developed by Altrix Forex Group. It combines intuitive easy-to-use interface which will be very clear even to those who have never tried Forex trading before and extremely advanced carefully calibrated algorithms that will blow your mind for sure – even if you are a seasoned trader with years and years of Forex experience under your belt. Forex Atlantis is a piece of Forex software made by trades and for traders – that is the guarantee of Altrix Forex Group.
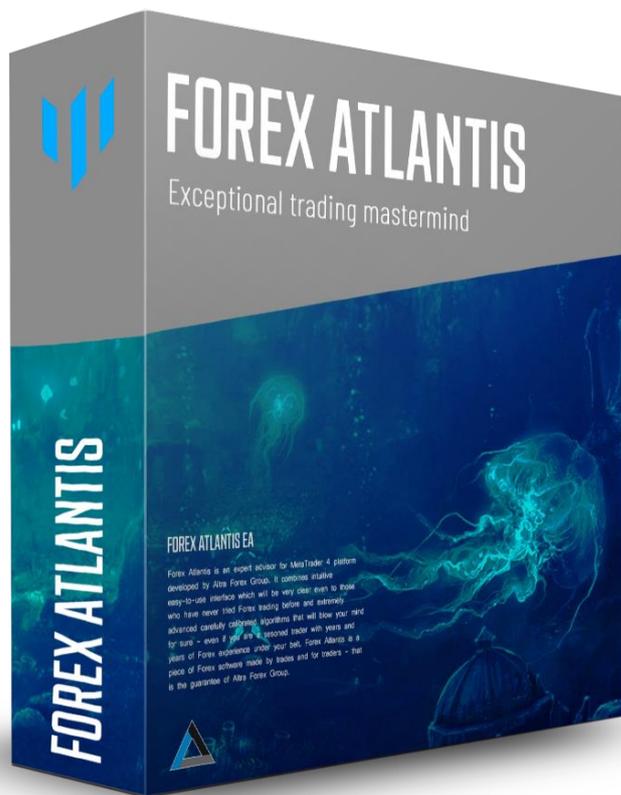

ForexAtlantis.com

Important Features

Platform:

MetaTrader4

Timeframes:

M5 Timeframe

Currency Pairs:

EURCHF, EURGBP, GBPUSD, AUDCAD, EURAUD

Installation

1. Unzip the file you've downloaded.

2. It contains a single file: **ForexAtlantis.ex4**

3. Open your MT4.

4. Go to "File – Open Data Folder – MQL4".

5. Copy ".ex4" from the folder you've downloaded and paste it into the "Experts" folder in MQL4.

6. Restart the MT4.

7. Drag and drop the file from the Experts tab in the Navigator to the charts. Make sure you choose all the following options:

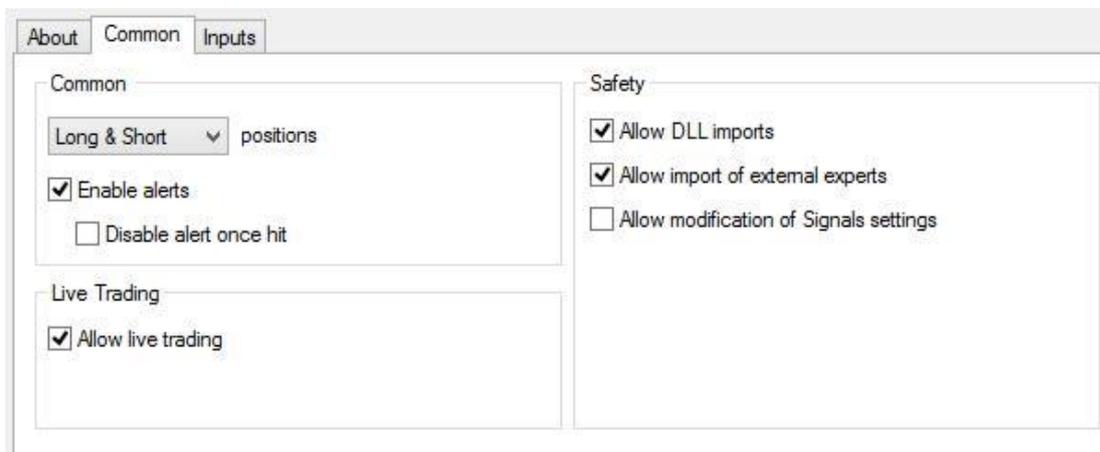

Please make sure to enable live trading:

If everything was done correctly, you will see a smiley face in the upper right corner of the chart:
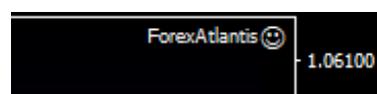

PLEASE MAKE SURE THAT YOU'VE REGISTERED YOUR MT4 NUMBERS, OTHERWISE THE SOFTWARE WILL NOT WORK! Contact us at support@altraforex.com if you require assistance with license activation.

IMPORTANT! When you put Forex Atlantis on your chart, you will see GMT offset automatically calculated according to the difference between GMT and your broker's server time. You can see this number next to the Server time:
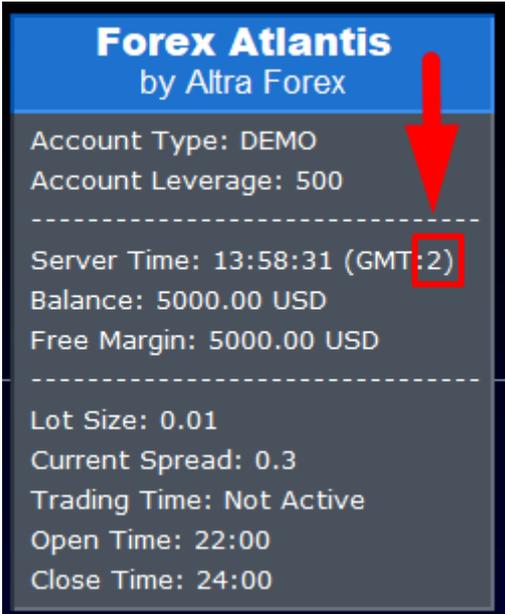

You need to put this number in the Inputs of the Expert Advisor in the "GMT offset" field.

If you've done everything correctly, "Open Time" and "Close Time" in the Infoboard will change to the actual trading hours.

Inputs
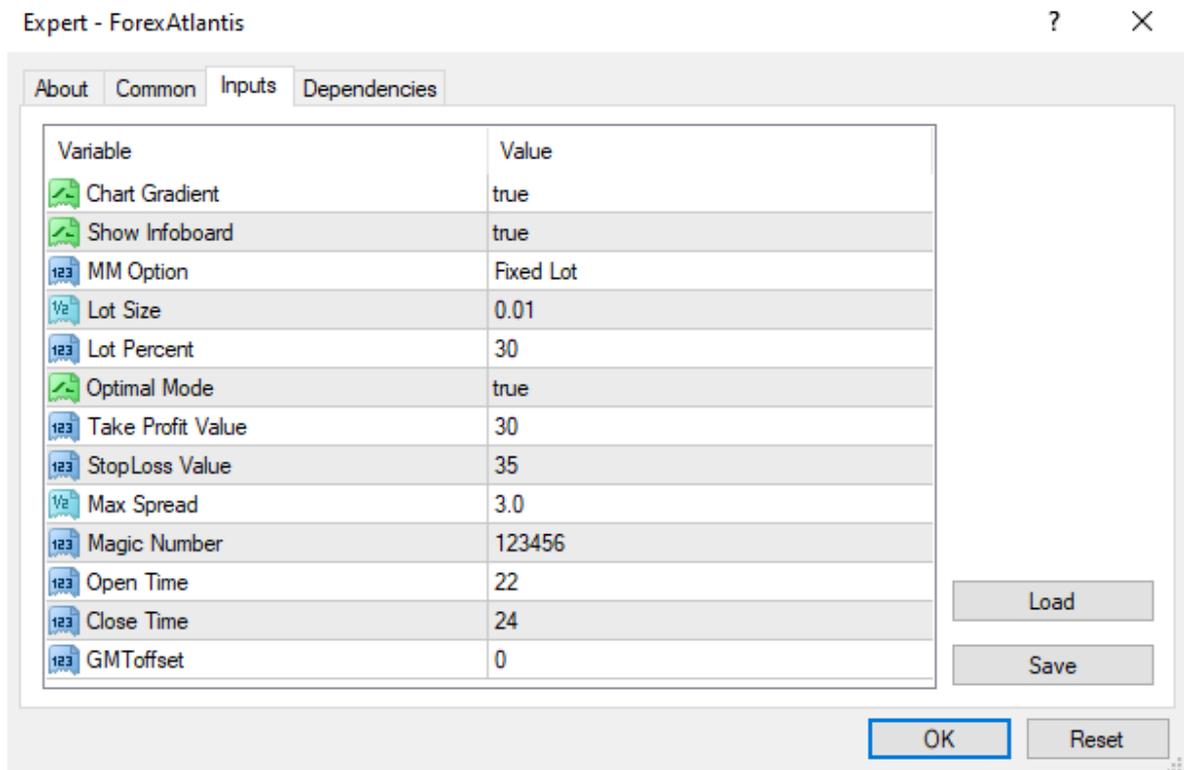

Chat Gradient is responsible for the color of the background of the chart. If you want to turn it back to standard color (black), set this field to "false".

Show Infoboard is responsible for displaying the Infoboard in the upper-left corner of the chart.

MM Option (Money Management option) is set to "Fixed Lot" by default and uses the value set in the field "Lot Size". If set to "Percent Per Margin" then it will use the percentage set in the field "Lot Percent" (recommended values are 1-3 per trade). After setting either Lot Size or Lot Percent to the value of your choice, you will see them displayed in the Infoboard.

Lot Size and **Lot Percent** are responsible for displaying values necessary for Money Management option.

Optimal Mode is responsible for enabling safer trading patterns. Set to "true" by default.

TaleProfit Value allows you to manually configure TakeProfit value. Set to 30 by default.

StopLoss Value allows you to manually configure StopLoss value. Set to 35 by default.

Max Spread is responsible for displaying the highest value which allows to open the trade. Set to 3.0 by default. For certain pairs (EURAUD, AUDCAD) it is recommended to switch to 5.0.

Magic Number is responsible for displaying the magic number of the software.

Open Time and **Close Time** are responsible for manually configuring active trading hours. If you want to increase the number of the trades you are taking per day, you can set it to any period from 21:00 to 04:00.

GMToffset is responsible for indicating your correct time zone to the software. **MAKE SURE YOU HAVE PUT THE GMT VALUE FROM THE INFOBOARD BEFORE YOU START TRADING.** After entering data in this field, you will see your actual trading hours in the infoboard.
